

Ohio's initiative to improve teaching and learning through technology.

D3A2

Data Driven Decisions for Academic Achievement (D3A2) provides Ohio teachers with systematic access to valuable performance data and aligned educational content to help them meet the needs of their individual students. The [Data Tool](#), [Resource Exchange](#), and [Professional Development Toolkit](#) are currently listed among D3A2's offerings. D3A2 is a long-term initiative in the state of Ohio. It seeks to develop and provide federated access to a range of data-use products specifically designed to impact instruction at the classroom level. D3A2 employs a unique collaborative approach to provide effective tools that have been created by teachers for teachers. Districts, schools, and teachers are welcome to freely choose from D3A2's offerings at no direct cost.

D3A2 Products and Services

Data Tool

Resource Exchange

Data Scrubber

Event Scheduler

Professional Development

Data Tool

The **Data Tool** puts data in the hands of educators in a powerful, easy-to-use format. It helps teachers analyze student performance and then points them to resources designed to address the specific academic needs identified by the data. Login accounts are required. Districts can learn how to get started with the Data Tool by visiting the [Implementation](#) page.

Resource Exchange

The D3A2 Resource Exchange is a collection of educational resources including lesson plans, assessment items, and multimedia materials that have been provided and aligned to Ohio academic content standards by our many partners.

Interactive Tour

The D3A2 Interactive Tour provides multimedia-enhanced introductions to the D3A2 Data Tool and Resource Exchange as well as interviews with teachers and administrators who show how using data can improve teaching and learning in the classroom.

Data Scrubber

The Data Scrubber is a web-based application designed to prepare student score and item analysis data obtained from the Ohio Achievement and Graduation Tests for upload to the D3A2 Data Warehouse.

Professional Development

The Professional Development Toolkit, instructional websites, and training offered by D3A2 are specifically created to support the teachers, administrators, and district support personnel as they learn to use data in instructional decision-making.

Classroom Assessment Module

The D3A2 Collaborative is preparing to pilot a local Classroom Assessment Module (CAM) which will eventually be added to its offering of teacher-friendly data-tools.

Participation

Individuals interested in learning more about D3A2 are encouraged to visit the project webpage (<http://www.d3a2.org/>).
